

## Council on Technology Services

### Identification and Access Workgroup

#### Purpose

##### Mission

To explore the creation of a unique and consistent identification of customers that is usable in all public transactions, and protects privacy and security while increasing accessibility to government services. The workgroup will research potential methodologies and options and provide recommendations to COTS.

##### Planned Deliverables

The Identification and Access Workgroup will provide COTS with a white paper detailing alternatives and the pros and cons associated with each. Estimated cost information, political impacts, privacy and security concerns, and general feasibility elements will be included.

#### Organization

##### Leader/Chair

Dave Burhop, Department of Motor Vehicles, Chairman

##### Membership

Shirley Payne, UVA Director for Security Coordination & Policy

Lana Shelley, DMV Systems Development Director

Don Kendrick, Commonwealth Chief Architect
